EDUCATION

- 2018: Bachelor of Computer Applications (BCA) from Techno India Hooghly
- 2015: Higher Secondary from Bally Jora-Wasathatala Vidyalaya

CERTIFICATION

- ➔ Certified in iOS App Development (Swift)

CORE COMPETENCIES

- ➔ Application Development
- ➔ GUI / UI Design & App Performance
- ➔ IOS Applications
- ➔ Testing Plans & Procedures
- ➔ Project Management
- ➔ Requirement Gathering & Analysis
- ➔ Risk Identification & Monitoring
- ➔ Stakeholder Engagement
- ➔ Mobile Application Security

TECHNICAL SKILLS

- ➔ Programming Language: Swift
- ➔ iOS Frameworks: UIKit, iOS SDK, Cocoa Touch, Core Data, WebView, MapKit
- ➔ APIs & Integrations: Firebase, Twilio (Audio & Video Call), LiveKit, Socket.io, Stripe, PayPal, Ably, Push Notifications, core data, SwiftlyJSON
- ➔ Development Tools: Xcode, Git, Jira
- ➔ Other Skills: Payment Integration, Property List, UI/UX Design, Socket Communication

PROFILE SUMMARY

- ➔ Results-oriented iOS Developer with 5+ years of experience designing, developing, and deploying scalable iOS applications using Swift, Objective-C (1+ year), C, UIKit, and SwiftUI (1+ year). Experienced in building high-quality applications using MVVM and MVC architectures, with strong knowledge of multithreading (GCD, OperationQueue), delivering 10+ production apps across Healthcare, Ride-Sharing, Fitness, and Enterprise domains while maintaining 95%+ crash-free sessions.
- ➔ Skilled in end-to-end app development, including requirement analysis, UI/UX implementation, API integration, CI/CD, offline database handling, and App Store deployment. Experienced in working with cross-functional teams to deliver user-centric features that improve engagement and app reliability.
- ➔ Strong expertise in HealthKit, Bluetooth integrations, CoreData, Realm, SQLite, payment gateways, push notifications, and third-party SDK integrations. Adept at optimizing code, improving performance, reducing bugs, and implementing secure, maintainable architectures.
- ➔ Consistently stays updated with new iOS frameworks and industry trends to design innovative solutions that enhance user experience and app functionality.

WORK EXPERIENCE

Senior iOS Developer | ObjectSol Technologies Pvt. Ltd. | May' 2025 - Dec' 2025

Key Achievements & Responsibilities:

- ➔ Integrated **Bluetooth-based medical device modules**, enabling real-time monitoring of physiological data and improving device connectivity stability by **40%**.
- ➔ **Implemented HealthKit integration using SwiftUI to securely fetch, sync, and manage user health data, improving data accuracy and ensuring compliance with Apple's privacy standards.**
- ➔ Optimized data-processing workflows, reducing API data-fetch time by **30%**, resulting in smoother and faster user experience.
- ➔ Collaborated with product and backend teams to deliver health-monitoring features that improved user engagement and app usability.

iOS Developer | Techno Exponent Pvt. Ltd. (T-Web Exponent service limited) | Sept' 2022 - Dec' 2024

Key Achievements & Responsibilities:

- ➔ Developed and maintained multiple iOS applications, delivering **high-quality UI/UX**, robust API integrations, and seamless third-party SDK implementations.
- ➔ Architected scalable app modules and reusable components, reducing development effort by **20%** for future releases.
- ➔ Worked closely with backend engineers to design and integrate secure, efficient APIs, improving overall app performance and stability.
- ➔ Participated in daily scrum meetings, sprint planning, and code reviews to ensure alignment with project goals and timelines.
- ➔ Improved application performance by optimizing view rendering and memory usage, contributing to **95%+ crash-free sessions** across releases.

iOS Developer | W.G Technologies Pvt. Ltd. | Nov' 2019 - Aug' 2022

Key Achievements & Responsibilities:

- ➔ Developed high-performance iOS applications with a strong focus on scalability, performance optimization, and enhanced user experience.
- ➔ Led the development of major features for the **X10D** and **Heavy Machinery Care** applications, contributing to improved user retention and overall feature adoption.
- ➔ Improved app performance by implementing optimized caching, background task handling, and efficient database operations.
- ➔ Coordinated with cross-functional teams and actively facilitated project meetings, ensuring timely delivery and alignment with business objectives.
- ➔ Reduced critical bugs and crashes through rigorous testing and debugging, helping maintain **high application stability** in production.

ACHIEVEMENTS

- Recognized for contributing to one of the company's Top 3 Revenue-Generating Projects, delivering high-quality iOS features that enhanced performance and user engagement.
- Successfully delivered 12+ production iOS applications, contributing to increased user adoption and app-store visibility.

PROJECT PORTFOLIO

X10D

App Store: <https://apps.apple.com/in/app/x10d/id1612255562>

A cloud-based livestock management platform developed with the University of Kentucky. Provides herd management tools, learning resources, and real-time data insights for the beef industry.

Heavy Machinery Care

App Store: <https://apps.apple.com/in/app/heavy-machinery-care/id1582959119>

India's marketplace for heavy machinery—buying, selling, and renting equipment. Built to improve transactions, user verification, and equipment search workflows.

LifeForce Care

App Store: <https://apps.apple.com/in/app/lifeforce-care/id1528925627>

A healthcare app offering personalized health monitoring, doctor consultations, and assessments. Supports real-time insights and user health history tracking.

Desty Driver

App Store: <https://apps.apple.com/in/app/desty-driver/id1436283265>

Driver-focused ride-hailing app enabling users to earn flexibly and manage rides with ease.

Desty - Request a Ride

App Store: <https://apps.apple.com/in/app/desty-request-a-ride/id1436302195>

Ride-booking app for Australia, focusing on quick ride requests, route tracking, and streamlined user experience.

Music is Vivid

App Store: <https://apps.apple.com/in/app/music-is-vivid/id1489035451>

A music visualization and interaction app combining audio analysis with immersive visual effects.

ICareSync

App Store: <https://apps.apple.com/us/app/icaresync/id6736616518>

Developed SwiftUI-based UI and integrated multiple Bluetooth medical devices using various third-party SDKs, ensuring secure, real-time health data synchronization in a HIPAA-compliant application.

MyJivika

App Store: <https://apps.apple.com/us/app/myjivika/id6746123366>

A micro-habit training application offering daily 1-minute practices, progress tracking, and wellness-based micro workshops.

iThnk

App Store: <https://apps.apple.com/in/app/ithnk-measure/id577752074>

A productivity and audit management app designed to streamline inspection workflows by enabling users to create checklists, track findings, assign follow-up actions, and maintain a complete audit trail for compliance and quality monitoring.

PROJECT IN PROGRESS

FitRival

Health app integrating Apple Watch & HealthKit to track fitness goals and provide AI-powered health insights.

Tow-It

Towing service booking app that connects users with nearby service providers during vehicle breakdowns.

Caller ID

Caller identification app (TrueCaller-like) enhancing user safety and communication transparency.

Tax6s Driver App (In Progress)

Ride-booking app offering solo, shared, and scheduled rides, similar to Ola/Uber.
